

# Herbold Meckesheim GmbH

## We supply innovative and customised conveyor technology

You want long, short, high, swan-neck, troughed belt conveyors, you name it, Herbold can supply a tailor-made belt conveyor according to the modular system, even for distances of 12 m or more.

The following ancillary equipment will best suit your requirements:

- **Corrugated edge belt**  
*perfect lateral sealing for size-reduced materials*
- **Metal detector**  
*will protect the granulator*
- **Automatic metal discharge chute**  
*temporarily activates the discharge mechanism if metal is detected*
- **Overband magnetic separator for separating metals**  
*separates ferromagnetic metals*
- **Drum motor**  
*space-saving, long lifetime and wear-resistant*

On demand, we will submit a quotation for a customised belt conveyor!
